VERGE OF ABANDONING MEN ARE EXHAUSTED

Efforts to Stay the Work of Waters Nearly Given Up.

MONFY IS REQUIRED.

Unless Planters and Other Persons Who Are Directly Interested Put Up Necessary Cash the Work Will Cease.

New Orleans, March 31.—The carrying away of additional cribbing at the Hymelia crevasse early Monday morning brought the forces that have been at work there to the verge of abandonment of the attempt to close the break. Later in the day, however, as a result of several conferences, it was agreed to continue the undertaking, though all hands are likely to be called off in the terrific current washes out the new lines of cribbing which were started from both ends of the levee late Monday afternoon. In no event can the work be completed inside of a week, unless ample money is guaranteed the next disaster to the struggle. The levee board let it be known that it was at the end of its resources, and that unless the planters and the railroads could assure subscriptions amounting to \$50,000 it would be compelled to throw up its hands. Doubtless double that amount will be required to complete the job. By evening it was said the break was close to 700 feet in width with the ends still steadily melting away.

Two ridges between which the levee caved has prevented the water from spreading rapidly above and below, but the mighty torrent is filling the lakes and bayous to the rear and in the next fortnight the whole basin from the La Fourche to the lower limits of cultivatable land in Plaquemine is likely to go under water, causing incalculable damage and much suffering.

The Texas and Pacific road is now hopelessly involved, with water running deep over the tracks and with little hope of an early resumption of traffic if the crevasse is permitted to run until low water comes. The Southern Pacific people however claim that there service is not likely to be interrupted owing to the height and solidity of their road and the fact that it is freely studded with culverts for the escape of flood water. The Howell crevasse, however, is absolutely beyond control, and this has suspended all traffic over the Napoleonville branch of the Southern Pacific, the attempt to crib the roadbed having been abandoned.

General Booth's Hearty Welcome.

London, March 31.—London accorded General William Booth, commander in chief of the Salvation Army, a great welcome home at Albert Hall Monday night. The immense auditorium was packed from the floor to the roof. There was not a vacant seat in the building which has a capacity of 9600 persons and in spite of the rainy night hundreds were turned away from the door. General Booth's appearance on the platform was the signal for a remarkable demonstration.

Farmers Fight a Duel.

Lake Charles, La., March 31.—John Guillory and James McMillan, farmers, fought a duel, without seconds, close to the east line of the parish. The men quarreled about a dog, according to McMillan, the survivor. They met in the road. Guillory said: "We will settle our troubles right now," and both pulled guns. McMillan was quickest and killed Guillory instantly. McMillan surrendered to the officers.

Mud Boils at Mayersville.

Vicksburg, Miss., March 31.—Mud boils appeared in the levee at Mayersville almost the entire male population is working at the danger point. Telephone messages state that the danger is great and that the citizens are indignant at the levee boards action in withdrawing the guards from the levees in that city. Mayersville is the county seat of Issaquena county.

Battle in Domingo.

Cape Haitien, Haiti, March 31.—A serious engagement took place between the Dominican government troops and the revolutionary forces at Juan Calvo, near the town of Bajabon. The losses on the government side were twenty-seven killed and forty-three wounded, while the revolutionists lost five killed and eleven wounded.

Safe Blown Open.

Chickasha, I. T., March 31.—The safe of the Minco Mercantile company, at Minco, twelve miles north of here, was blown by safe-blowers. They secured \$29.05 in cash and over \$35,000 in notes, insurance policies and private papers of value to no one but the concern.

Adverse to Relator.

Austin, March 31.—The supreme court decided that case of G. T. Moore vs. Charles Rogan, land commissioner, an application for mandamus, adversely to the relator, who sought to have the commissioner rescind his action in canceling a purchase made by relator of two sections of land.

Fresh Hands Are Required to Press Forward the Work,

FILLING UP COURSES

Water From Hymelia Crevasse Is Beginning to Cause People Living Upon the Lowlands to Go to Higher Places.

New Orleans, March 31.—More men and more money is the cry that comes from the crevasse at Hymelia. Forces employed there, who have been working day and night, are well night exhausted and fresh hands are required to press forward the work. The Texas and Pacific has put on daily trains to carry laborers to the scene.

Eight hundred feet of cribbing at one end and 200 at the other were holding firmly and the prospect of closing the break brightened considerably.

The river here registered 20.2 feet, a fall of one-tenth of a foot in twenty-four hours.

Col. Ernest, the head of the river commission, is quoted as expressing his belief that the river here has reached its maximum if the Hymelia break continues to run.

A report from the Ponchartrain district says line levees are holding and all observable weak spots have been strengthened. Water from Hymelia is beginning to fill up the water courses on the west bank of the river, and people who are living in the lowlands are beginning to move to higher villages with their goods and chattels.

GIVES WAY.

Levee at Angola Has Broken and Great Damage Feared.

New Orleans, March 31.—A dispatch received says: The main levee protecting Angola state convict farm gave way. The entire place will be covered with water in a few hours. Efforts are being made to protect the camps. Angola is located in the east bank of the Mississippi, in West Feliciana parish. It is nearly opposite the mouth of Red river. The levee which broke is a private one, maintained by the state. Angola is one of the finest cotton plantations in Louisiana. It was formerly owned by S. L. James, late penitentiary lessee, but was purchased by the state when convict lease system was abolished and the state took charge of convicts. It is one of three plantations owned by the state. The crevasse will doubtless cover the entire plantation with water, but it is said because of its location no other valuable property is likely to be affected. Back levees protecting Angola will be cut in order to allow the escape of the flood.

No loss of life is reported at the scene, ample warning having been given, it is assumed, to all convicts located there. The loss to the state will doubtless be heavy.

Tuesday's River Bulletin.

Washington, March 31.—The weather bureau issued the following special river bulletin: There is no change in the lower Mississippi river situation. The stage at Vicksburg is 51.4 feet, at New Orleans 20.2 feet, a fall of .1 foot since Monday morning.

INDIGNANT IRISHMEN.

For the Second Time McFadden's Row of Flats Company Egged.

Philadelphia, March 31.—A panic was precipitated at the People's theatre Monday night when the actors in the farce, "McFadden's Row of Flats," were mobbed by a throng of Irishmen. Eighteen men were arrested and held without bail charged with inciting riot. The disturbance occurred in the first act. While Mr. Whitelaw was singing "Mr. Dooley" he was greeted with a shower of eggs and some person in the audience discharged a pistol. Immediately there was a rush for the exits and in the excitement women and children were trampled upon. None were seriously injured, however.

STARTS ON TRIP.

George J. Gould and His Two Sons to Travel Over Southwestern System.

Lakewood, N. J., March 31.—George Gould takes his two sons and begins his trip over the Gould system of railroads in the west and southwest. This trip was planned about two weeks ago and everything was in readiness, but Mr. Gould found it impossible to take the trip at that time on account of business. The boys have been studying by means of charts the various industries in the different cities through which they pass, and they will have an opportunity to see how the great system is managed.

Wife's Head Blown Off.

Ballinger, Tex., March 31.—About fifteen miles north of this place, Henry Shaefer, a prosperous German farmer, was cleaning his gun in the house, and his wife was sitting close by combing her little daughter's hair, when, by some unforeseen or unknown cause, the gun fired and the charge entered Mrs. Shaefer's head, blowing it almost from her shoulders. She leaves several small children. Her husband is almost insane with grief.

BY CONNELLY & CARNES.

Per Week, 15c. - - Per Month, 40c.

BRYAN, TEXAS, APRIL 1, 1903

Governor Lanham is quite a success at writing good strong veto messages once in a while, as well as in other respects.

The Texas local option law was upheld in an important decision by Federal Judge Bryant, rendered in a case tried at Sherman last week. One feature only, a minor provision regarding physicians' prescriptions, was declared invalid.

The governor has announced that a special session of the legislature will be called for the 2nd, immediately following the regular session. The special session is a necessity in order to pass the appropriation bill, and other subjects for legislation may be named.

Hon. McDonald Meachum, representative in the legislature from Grimes county, has made a great rep on his speech in advocacy of his anti-trust bill, and is being talked of for Congress to succeed Tom Ball by some of his friends. Mac has the mould of a statesman.

The legislature passed a bill repealing the occupation tax on lawyers, bankers, dentists and merchants. The governor has vetoed it, alleging among other reasons, that the next legislature might as well have a say at it, as it is not effective for two years. The governor also objects to the bill because of its discriminations—taking the occupation tax off some professions and leaving it on others; also alleges that provision should be made for revenue to take the place of that cut off, before any taxation is taken away.

BENEFIT ENTERTAINMENT

At the Opera House Last Night a Grand Success.

The entertainment given at the opera house last night for the benefit of the turnage fund of the Baptist church, under the auspices of the ladies aid society, was in every sense a success and one of the most beautiful and delightful affairs of the kind ever given here. It was gotten up under the direction of Mrs. W. S. Howell and Mrs. H. O. Boatwright who were assisted by several other ladies. The decorations, designed by Mrs. Howell, were in keeping with her exquisite taste. The stage was made to represent a church elaborately decorated for a wedding with palms, ferns, roses, chrysanthemums, moss and greenery. An altar brilliant with candles and stately in the details of its arrangement was erected in full view of the audience, and all other accessories were equally perfect. The wedding chorus from Lohengrin was sung behind the scenes upon the entrance of the bridal party, and at an opportune moment Miss Annie Beall Batte sang "Because I Love You" very sweetly. The costumes were in perfect keeping with the requirements of the most elaborate wedding, and the effect was exceedingly beautiful, the boys and girls carrying out their several parts as well as grown up folks.

The casket scene from the Merchant of Venice and the Bridal Wine Cup were elaborately presented in costume. The second part was devoted to a high class musical program with Ed Saunders as the inimitable director. The large audience was thoroughly delighted with the entertainment of which the following is the program in detail:

PART I.

"TOM THUMB WEDDING."

Bride..... Miss Ara Haswell
Groom..... E. J. Fountain, Jr.
Maid of Honor..... Miss Helen DeMaret

PARKS & WALDRUP,

Men's Outfitters

If the city government of Bryan has any desire to do something right now to earn the gratitude of the people and show cause why it should exist, one little matter it might attend to promptly is to have the I. & G. N. railway company drain the lakes of stagnant water in the yards south of the compress. These cesspools will breed millions of mosquitoes and malaria germs by wholesale now soon, when the weather begins to warm up. The railroad company named made various promises when after the city council for concessions, the said promises being to the effect that they would fill up and smooth over the ground in that part of town, and make things mighty straight and nice if allowed to build their dumps and run their switches about over the town where'er their fancy dictated. The pools were there all last summer, whenever it rained, and the nuisance was considerable, though dry weather was some protection. Now, with rainfall in abundance, the sloughs are full of reeking filth, and the doctors and undertakers are going to get busy if something is not done about it pretty soon. There are some drains farther down the track, yet still in the corporate limits, that very much need opening up. It is sometimes the custom in Bryan however, to ignore the residents "way out," except at tax-paying time, and not much is to be expected so far out. The stagnant waters first named herein are right up in town, and might certainly be expected to have some attention.

The Allen Academy boys defeated an I. & G. N. team at baseball yesterday afternoon. Score 21 to 0. The game was called in the fourth inning.

FOR ALDERMAN.

The Eagle takes pleasure in calling attention to the announcement of Mr. John Kestler for alderman this morning. Mr. Kestler has resided in Bryan for fifteen years and is well known to the people of the city as an upright, honorable man and a good citizen. He has been a fireman a number of years and has been prompt and faithful in the discharge of every duty. He will give the same careful, impartial and conscientious service to the city in the capacity of alderman, if elected, as has always characterized his course. He asks a favorable consideration of his claims.

Prof. R. E. Scott phones the Eagle from Macy that his school at that place will close Friday night. April 10, with a big concert which everybody is invited to attend. An elaborate program has been arranged. Prof. Scott has a splendid school with an enrollment of 65 pupils. Some of his pupils are ready to stand examinations for teachers' certificates.

The ladies who have seen my pattern hats have in many instances shown their appreciation of them by buying. They are the kind that please where taste and style are considered. The creations of the best designers and trimmers, these hats are as correct as can be found in the most fashionable bazaars and will meet your approval. Coulter.

Indigestion Causes Catarrh of the Stomach.

For many years it has been supposed that Catarrh of the Stomach caused indigestion and dyspepsia, but the truth is exactly the opposite. Indigestion causes catarrh. Repeated attacks of indigestion inflame the mucous membranes lining the stomach and exposes the glands to secrete mucin instead of the juices of natural digestion. This is called Catarrh of the Stomach.

Kodol Dyspepsia Cure

relieves all inflammation of the mucous membranes lining the stomach, protects the nerves, and cures bad breath, sour risings, a sense of fullness after eating, indigestion, dyspepsia and all stomach troubles.

Kodol Digests What You Eat

Make the Stomach Sweet. Bottles only. Regular size, 51.00, holding 2 1/2 times the trial size, which sells for 50 cents.

MANY MEASURES.

Quite a Number Were Put Through the Senate and House.

Austin, March 31.—A resolution requesting the governor to submit in his message for a special session of the legislature the question of an appropriation for the World's fair was defeated in the house by a vote of 58 to 44. This ends the fight for an appropriation as far as this legislature is concerned.

The Cotton Belt consolidation bill passed finally in the house without the amendment to extend to Hamilton, Hamilton county.

Bill creating a board of pharmacy for Texas was passed finally. Also the Pick bill requiring all street cars and suburban lines to place vestibules on their cars during the winter for the protection of the motormen.

Bill to compel railroad and public buildings to be disinfected was passed to third reading. The Southern Kansas railroad merger passed finally in the house. The cocaine bill also passed finally.

The house concurred on senate amendment to Love's bill requiring street cars to transport children at half fare and students; bill only applies to cities of over 40,000 inhabitants.

The senate concurred in house amendments to bill prohibiting wild cat insurance.

MURPHY'S DECISION.

Of the Opinion That Arthur Pennell Could Have Been Held.

Buffalo, N. Y., March 31.—Judge Murphy handed down his finding in the Burdick inquest and declared the identity of the murderer has not been proved. The statement is an exhaustive review of the evidence brought out in the inquest. Special attention is given to the letters exchanged between Arthur R. Pennell and Mrs. Burdick, particularly one containing a threat against Burdick's life. Concerning these facts, in my opinion, constitute just ground for suspicion on which a warrant could be issued were Pennell alive.

Referring to Mrs. Hull, Judge Murphy says: "The action of Mrs. Hull on that morning (morning after the murder) and her testimony on the stand has caused me much thought and worry. To my mind they are inconsistent with a perfect want of knowledge as to what actually occurred. So little apparent feeling for the dead man and such evident desire to cover up the crime and no disposition whatever to aid the authorities in apprehension of the murderer may be explainable, but have not been explained."

TERRIBLE RESULTS.

One Man Was Killed and Several Others Badly Injured.

Pittsburg, Pa., March 31.—One dead, seven not expected to live, two missing and seven others so badly burned and disfigured as to be almost unrecognizable were the terrible results of an explosion in a blast furnace "I" of Edgar Thompson steel plant of the Carnegie company at Braddock, Pa. As far as can be learned the explosion was due to supposed defect in electrical equipment furnace.

Battle With Cattle Thieves.

Tucson, Ariz., March 31.—Captain Thomas Rynning of the Arizona rangers has been advised of a pitched battle which took place at Black Rock, Graham county, between a company of his men and a band of cattle thieves. The message was accompanied by an appeal for reinforcements, and stated that the rangers had been compelled to retire in the scrimmage, although none of their number were killed and two were but slightly wounded.

Two Railroaders Killed.

Waterbury, Conn., March 31.—In a collision between a wild engine and passenger train on the New York, New Haven and Hartford railroad at South Brooklyn two persons were killed and three injured. Known dead are: Engineer Chapman of the wild engine and Fireman Newman of the passenger train.

Credentials Presented to Castro.

Caracas, Venezuela, March 31.—Herr von Pellgram, the new minister of Germany and Mr. Bax-Fronsdale, the recently appointed British minister, presented their credentials to President Castro. Their reception was more cordial than expected, owing to the extreme amiability of the envoys of Great Britain.

Miss Roosevelt Nicely Treated.

San Juan, P. R., March 31.—Miss Alice Roosevelt, Governor Hunt and their party returned here by train, having visited the towns on the north coast. Miss Roosevelt was received with great enthusiasm everywhere, the inhabitants vying for the honor of having her as their guest.

JACKSON IS NO MORE

Gallant Confederate General Passes Over the River of Death.

COMMAND OF TEXANS

Was a Graduate of West Point Military Academy, Famous Fighter and Proprietor of Belle Meade Stock Farm.

Nashville, Tenn., March 31.—General William H. Jackson, the noted Confederate cavalry leader during the civil war, when he bore the sobriquet of "Red" Jackson, died at his home, Belle Meade, near here, Monday afternoon. He was in the sixty-eighth year, and has been in failing health for more than a year and dangerously ill for several weeks past. At the close of the civil war General Jackson was in command in Forrest's old division with the Texas brigade added. Since the war he has devoted himself to agriculture and the breeding of thoroughbred running horses, some of the most noted performers of the American turf having been born at famous Belle Meade. Two children, William H. Jackson, Jr., and Mrs. Selene Elliston, survive him.

General Jackson was born at Paris in 1835 and acquired a preparatory education in the schools at Jackson. He entered West Point as a cadet in 1852 and graduated in 1856. In the following year General Jackson went to New Mexico as an officer in a regiment of mounted rifles and actively participated in the principal Indian fights with such adventurous scouts as Kit Carson. He resigned his commission in the United States army upon the outbreak of the civil war and offered his sword to his native state and was appointed a captain of artillery by Governor Harris.

At the battle of Belmont General Jackson received a minnie ball in his side, which has never been removed. He was raised to the rank of colonel for his gallantry in that fight. General Jackson commanded the cavalry under Generals Albert Sidney and Joseph E. Johnston, and led the advance on the invasion of Tennessee by Hood's army and his division covered the retreat of the army after the battle of Nashville. He was raised to the rank of brigadier general for his dash at Holly Springs that resulted in the loss of the federal base of supplies and compelled General Grant to abandon his campaign against Vicksburg. General Jackson was recommended for further promotion by his superior officers, but failed to secure the reward.

General Jackson married the daughter of General W. G. Harding in 1868 and became associated with his father-in-law in the conduct of Belle Meade stock farm. He assumed active management of the property several years before the death of General Harding and the high state of perfection attained by Belle Meade as the nursery of the thoroughbred is due to his judgment and management.

PROTECTING THEM.

Sportsmen Will See to It That the Deer Are Not Slain.

Natchez, Miss., March 31.—There was no damage to the Arnolia levee, just below Vidalia, La., on account of the boils Sunday and everything there is now considered safe. The river here has been stationary at 56.4 since Saturday morning at 3 o'clock.

Local sportsmen are making every effort to prevent the killing of deer driven from the Louisiana woods by the high water. The members of the Caillard sporting club agreed to subscribe liberally to a purse for the purpose of employing guards to arrest all persons who even attempt to kill the animals. A drove of five deer swam the river and sheriff Howe, with a police officer prevented their slaughter when they reached the bank. Wilkinson county has employed guards to patrol the river edge for the protection of the deer.

ARKANSAS LYNCHING.

Negro Charged With Arson Taken by a Mob and Strangled.

Little Rock, March 31.—A special to the Arkansas Gazette from New Lewisville, Ark., says meager news has reached here of a lynching which took place in this county three days ago at Bradley, which is near the Louisiana line. Frank Robertson, the negro lynched, was in jail charged with arson. He had confessed to firing a store.

Last Thursday night a party of twenty-five men said to be from across the Louisiana line rode into Bradley overpowered the jailer, took possession of the negro and rode away with him. His body is supposed to be in some of the near by cane breaks.

In the past year there have been many cases of arson in north Louisiana, in the county which adjoins this (Lafayette) county on the south.

Validity of Grant Sustained.

New Orleans, March 31.—Judge King in civil district court sustained the validity of the grant of the city council to the Frisco railroad, except in the matter of closing several streets. The case will go now to the state supreme court.

Inhaled Illuminating Gas.

Fall River, Mass., March 31.—Lieutenant W. H. Henderson, who has been in charge of dredging work in the local harbor for the past three months, committed suicide during the night by inhaling illuminating gas. He has a sister residing in Brooklyn and his home was formerly in Philadelphia.

DAMAGE BY STORM.

It Was a Gale and the Wind Blew Most Violently.

Newport News, Va., March 31.—Heavy damage ashore and afloat was wrought by wind and water during a storm here. The storm culminated in a violent gale. The tide reached a danger point within two feet of the level of the floors of the piers and threatened to bring great disaster to property along the water front.

To venture out into the raging seas was equivalent almost to suicide and seafaring men stayed on shore rather than risk their lives on the waves.

The two-master schooner William B. Hall bound up the James river to Norfolk with 35,000 brick, sank at her anchorage and will probably be a total loss. The captain and crew of two men put off from the boat in an open skiff as she was going down and attempted to reach shore. The men, who were all negroes, fought frantically against the elements. They were finally compelled to give up the fight and sank exhausted into the bottom of the boat. The men were exposed to the storm until 6 o'clock on Monday morning, when they were rescued by the Chesapeake and Ohio tug Alice. They were almost frozen when picked up.

The dead body of William Collier of the oyster punga W. B. Smith, which capsized in Chesapeake bay Jan. 30, was cast up by the sea at Ocean View.

The body of a negro, probably from a shipwreck in the storm, was found in a fisherman's net at the mouth of Hampton creek.

LITTLE CHANGE.

Flood Situation at Greenville Apparently Continues the Same.

Greenville, Miss., March 31.—There is little change in the flood situation. The cutting of the protection levee at the northern border of the town has given no perceptible relief in letting out the water. On the contrary a rise is still in progress generally throughout the city. The electric light plant is being rapidly pumped out, twelve large pumps are in operation and it is possible that the company may be able to resume at once.

The big crevasse three miles south of the city continues to widen and, it is impossible to say what the ultimate breadth will be if efforts to strengthen the ends and prevent further cutting are not successful. A large force of men is still engaged in this work.

So far as known not a single life has been lost as a result of the breaking of the levee and the subsequent flooding of the country. The negro family, a woman and five children, that was reported to have perished was rescued. There have been many sensational rumors of persons being drowned but to date not one of them has been confirmed.

Rescue boats are out in every direction and all refugees brought to the city are being cared for. In Greenville the water is causing endless inconvenience and damage, but the city and its inhabitants are not considered to be in the least dangerous even should the water go much higher. The threatened break at Catfish Point has failed to materialize and anxiety on this score is waning.

Two Thousand Feet Wide.

Arkansas City, Ark., March 31.—A reporter who went as guest of the Tensas levee board of Louisiana found the crevasse below Greenville about 2000 feet wide and the water is rushing through at a rapid speed, overflowing Issaquena, Sharkey and a portion of Washington county. Reports from all along levees show that they are in good shape and holding out well. A five-tenths fall at this point has greatly relieved the situation and the people are feeling much better over the outlook but will continue to watch the levee until all danger has passed. The water is not backing up so rapidly and it is thought Arkansas City will get very little more.

Postponed Until June.

New Orleans, March 31.—The Mississippi river commission arrived here Monday night after a view of the Hymela crevasse. General Ernest, president of the commission, said help would be extended to the crevasse fighters, the question of cost not being one to debate in the face of the emergency. No allotment had been made at this meeting, it being decided to postpone that until June, when the damage done by the river could be summarized and more intelligent relief afforded.

In Interest of Diaz.

City of Mexico, March 31.—Political clubs composed of the members of the Liberal party are organizing all over the republic to promote the re-election of President Diaz. Large conservative party land owners and businessmen are found favorable to his candidacy on the ground that he has pacified the country and inaugurated an era of political good feeling by appointing men of all parties, selected solely for merit to public office.

New Crevasse.

Greenville, Miss., March 31.—Persons who have returned from the crevasse three miles south of the city report that a second crevasse has occurred about 500 feet north of the first break. The new crevasse is about 300 feet wide.

Falling Slowly at Helena.

Helena, Ark., March 31.—The river is falling very slowly here and has reached 59.5 on the gauge, a fall of two-tenths in twenty-four hours.

Vies Admiral Dead.

Paris, March 31.—Vice Admiral Courejoles, who commanded the French forces at Taku and Tien Ts in the recent China expedition, dead.

Showed Himself Quick.

Gonbock, Scotland, March 31.—In her trial spin the Shamrock III showed herself remarkably quick.

FOR SALE

BY LAMAR BETHEA

Successor to Monroe Edge.

Real Estate Agent.

Will sell the Pochilla two-story house cheap.

Will sell lots in north western part of city, to colored people, inside lots at \$25.00, corner lots at \$35.00.
